FINANCIAL AND COMMERCIAL

MONEY AND THE MARKETS.

OFFICE OF THE INDIANAPOLIS SENTINEL,)

TUESDAY EVENING, Jan. 29, 1878. The local money market during the entire week has been only fairly active. The banks as usual meet all demands of their regular customers, and first class commercial paper is being negotiated at 9310 per cent, though in some instances a higher and lower rate is being paid.

Transactions in eastern exchange are moderate, and counter sales are being made at the same rate that has ruled for some time past.

Commercial.

The past week has been only a moderate one for business men. The demand for almost all kinds of merchandise has been only mode rate. The number of country buyers visiting the city has been small, and they have purchased only just what they need at the present time. Quotations have fluctuated but little, and the general markets may be reported as being quiet, steady and unchanged. During the first part of the week the provision market took a firmer stand, owing to the favorable news with regard to a large foreign demand if England was drawn into the eastern war, but as the news of the signing of the peace conditions lessened the prospects of the foreign trade increasing, the packers and holders of meat became more willing to sell at the ruling prices, and the market to-day was quiet, with but few transactions noted.

The grocery market has been fairly active during the week, the order trade being about as heavy as usual at this time of the year, and quotations both of staple and fancy goods rule

In reviewing the market the New York Bul-

letin says: Coffees.-Brazils do not yet reach a settled or encouraging position. Some holders are cal-culating that the protracted slow call from the interior must have exhausted supplies and formed base for a good distribution when demand again starts up, but jobbers are inclined to wait until this demand does actually show itself before commencing to handle invoice and the stock in first hands is almost entirely neglected. Former quotations are named nominally, but with the candid admission that they can not be obtained. From the "Gloria" 1,181 bags are reported sold. Holders of West India stock are looking for

about former rates on most of their accumulations, and offering samples without more than a natural effort to secure customers, but still meet with a somewhat discouraging response on the demand, and the entire market is flat. Within a couple of days some 2.250 bags Laguara have been sold, part (Coro) at 14% also. Java neglected.

Sugars.—More or less uncertainty continues

to be shown on the undertone of the general market for raws, but buyers may claim about all the present advantages. Some of the stocks remain off the market, but the supply available more than satisfies the outlets offered, and a sufficient number of holders have weakened to keep general cost on a downward in-cline still. The reported failures among importers to-day introduces another disturbing element. Values nominally unchanged, but current quotations are foll high. Sales em-brace too hhds New Orleans to arrive at 6%c; 1,600 boxes claved, 200 hhds centrifugal and 110 low grade Cuba on p tvate terms.

Refined without further change on valua-

tions, but selling very slowly, and the feeling on the market is weak. There has been a fair business trans-

acted in country produce during the latter part of the week, but on Monday and Tuesday the receipts of eggs were heavy, the market became overstocked and prices declined to 10 cents, but on yesterday and to-day the market became a little firmer and quotations went up

The demand for butter is almost equal to the supply, and choice table qualities meet with ready sale at unchanged prices. Receipts of poultry are liberal, and the mar-

ket rather dull, with nothing at all doing in dressed turkeys or chickens, Game rules quiet and prices unchanged. Dealers in dry goods report a fair demand

for both staple and fancy goods, and prices are undergoing but few changes. The New York Bulletin of Wednesday, in

reviewing the market for the week, says: There was a considerable addition to the number of buyers in the market during the past week, but business continued light in hearly all departments of the trade. Jobbers from some of the more distant distributing points in the south were rather more liberal in their purchases, but, in most cases, western and southwestern buyers confined their operations to the selection of such goods as were im-peratively required for the pursuance of cur-rent trade, and local and near by jobbers bought sparingly, as a rule. The present rates of freight demanded by the trunk lines of rail-road have created much dissatisfaction among western merchants, who contend, with apparwestern merchants, who contend, with apparent justice, that low priced dry goods should not be subjected to a much higher classification than other descriptions of merchandise. The system of "pooling" freights, which went into operation last July, has also been the cause of great discontent, and freights by the trunk lines leaving this city are now so light that many of the leading western lobbers are shipping a considerable portion of their low priced cotton goods, etc., by circuitous, and consequently tardy, but cheaper, routes from Boston. The reclassification of cheap cotton goods by the railroad companies, and on a lower bathe railroad companies, and on a lower ba

by the failroad companies, and on a lower basis than at present, is imperatively demanded, and would, probably, entail no loss upon the carriers, as shipments by the trunk lines would be largely increased thereby.

The jobbing trade, though quiet, was about as good as usually witnessed at this time of year, when there are comparatively few retail buyers in the market. The order demand for the most staple goods was fairly satisfactory the most staple goods was fairly satisfactory for the season, and a more active movement is expected about the end of the current

Cotton Goods.—There was a steady though moderate demand for all the more staple makes of cotton goods; and sales, coupled with deliveries on account of orders, reached with deliveries on account of orders, reached a fair aggregate amount. Prices ruled fairly steady on nearly all descriptions of manufactured cottons, and the late advance on denims, ducks, tickings, etc., was fully sustained. Higher prices were made on a few popular makes of wide sheetings, but, on the other hand, there was a break in Lonsdale 4-4 bleached surtings to 9c—the lowest quotation ever made for these well known goods. White goods, piques and Marseilles quilts were in better inquiry, but cottonades and cheviots moved less freely than was anticipated. The exports of domestics from this port for the week reached 4,042 packages, and from Boston 25 packages, or a total of 4,080 packages.

Prints —There has been less animation in the print market than was anticipated, and sales were mostly restricted to comparatively small lots of new light and medium fancies, which

lots of new light and medium fancies, which were opened in attractive variety by nearly all the leading agents at the exceptionally low price of 6c, which figure should certainly command the confidence of the trade and insure a

steadier market than was witnessed last spring. Shirtings were in fair request, but staples, robes and Turkey reds continued to drag, and there was only a hand to mouth demand for dark fancy prints. The following prices have been made by agents since the time of our last review: Pacific light and time of our last review: Pacific light and medium fancies, 6c; do dark fancies and robes, 6½c; Manchester light and medium fancies, 6c; do dark fancies, 6½c; Arnold's fancies, 6c; do dark fancies, 6c; Dunnell's fancies, 6c; Merrimack fancies, 6c; Dunnell's fancies, 6c; Merrimack fancies, 6c; Dunnell's fancies, 6c; Merrimack fancies, 6c; do cambrics, 5½c; Hartel's fancies, 6c; do chocolate staples, 6c; do Swiss ruby, greens and robes, 6½c; Sprague's fancies, 6c; Knickerbocker fancies, 6c; Hamilton light fancies, 6c; do staples, 6c; do robes, 6½c; Oriental fancies, 6c; do robes, 6½c; Oriental fancies, bocker fancies, 6c; Hamilton light fancies, 6c; do staples, 6c; do robes, 6½c; Oriental fancies, 6c; do robes, 6½c; do ruby and purples, 6½c; Windsor fancies, 6c; Washington green and orange, ruby and Swiss ruby, 6½c; Richmond fancies, 6c; do chocolates, 6c; do robes, double pinks, pink checks and stripes and assorted stripes, 6½c; do Germans and checks, 6c; Cocheco light fancies, 6c; do dark fancies, 6½c; do robes and purples, 6½c; do pinks, 7c; do shirtings, 5½c; do cambries, 8c; do wide foulards, 10½c; Allen's fancies, frocks, checks, ards, 10%c; Allen's fancies, frocks, checks, stripes and staples, 5%c; Allen's double pinks, pink checks, purples, Germans and buffs, 6%c; Southbridge fancies, 6c; do shirtings, 5%c.
